
FIRM DESCRIPTION

WHM INCORPORATED

On November 1, 1976 Stephen C. Hansmeyer, as President, joined with Richard A. Madden, as Vice President, to form the firm of WHM Incorporated, Engineering Consultants. Prior to the formation of WHM, Stephen C. Hansmeyer was principal for two years in the firm of Wilson and Associates from which WHM Incorporated was derived. The original firm of Wilson and Associates had a 12-year history of providing qualified, creative and effective professional services for projects of all size and complexity. These services are continued to provide the WHM client with state-of-the-art engineering and design capabilities. Active participation by the principals is assured to all clients regardless of project size or scope.

SERVICES

- Economic and Feasibility Studies
- Emergency Power Systems Design
- Lighting Design and Engineering
- Communication and Signal Systems
- Instrumentation and Control System Engineering
- Energy Conservation Evaluations
- Electrical Distribution Systems for Industrial, Recreational, Commercial, and Institutional Complexes
- State of California, Title 24 Electrical Documentation
- California High Performing Schools (CHPS)

RESUMES

STEPHEN C. HANSMEYER, P.E.

Principal
WHM Incorporated

Education Six years college and university studies with engineering certifications in the following disciplines:

- Electrical Engineering & Technology
- Commercial & Residential Controls and Instrumentation
- Industrial Electronics and Robotics

License Control Systems - California CS-1717
State of California Energy Auditor 88-031

Memberships Illuminating Engineering Society
Institute of Electrical and Electronic Engineers
Instrument Society of America
National Fire Protection Association

Experience

Mr. Hansmeyer has over 40 years experience providing electrical engineering services on a vast array of project types: office buildings, hospitals, medical office buildings, universities, schools, colleges, correctional facilities, industrial buildings, laboratories/clinics, municipal buildings, retail buildings, condominiums, hotels/ motels, restaurants, churches and banks.

In addition, Mr. Hansmeyer has years of experience designing electrical systems for the following Northern California educational facilities:

West Contra Costa Unified School District, Peralta Community College District, Chabot/Los Positas Community College District, Contra Costa Community College District, Lassen Community College District, Acalanes Union High School District, San Ramon Valley Unified School District, Moraga School District, Orinda Union School District, University of California, Yuba College, Dublin School District, St. Mary's College, Castro Valley Unified School District and Ross School District.

Our electrical engineering services for these projects include power, lighting, telephone, data infrastructure, intercom, intrusion alarm and fire alarm systems. Mr. Hansmeyer has over 40 years of educational facility experience and is knowledgeable with DSA, CA Title 24, California High Performing Schools (CHPS), and LEED requirements.

He provided complete electrical design for Cathedral City Civic Center consisting of 60,000 square feet of City administration offices, jail and City Hall. As well as Coalinga Police Facility which included new police headquarters, jail, council chambers and remodel to their existing city hall.

Mr. Hansmeyer has provided electrical engineering services for the following hospitals in Northern and Central California:

Doctor's Medical Center, San Pablo; St. Dominic's Hospital, Manteca; Hanford Hospital, Hanford; St. Joseph's Medical Center, Stockton; Mt. Diablo Medical Center, Concord; Amador Hospital, Jackson; Stanford Medical Center, Stanford, UCSF Hospital, San Francisco; Mark Twain Hospital, San Andreas; and Alta Bates Medical Center, Berkeley. Including over 1200 Kaiser projects at the following facilities: Berkeley Central Lab, Santa Clara, Vallejo, Walnut Creek and Santa Rosa.

JOSE L. WE, P.E.

Electrical Engineer/Project Manager
WHM Incorporated

Education Mapua Institute of Technology, Manila, Philippines

Licenses Electrical - State of California E-17369
Professional Electrical Engineer - Manila, Philippines

Experience

Mr. We has been involved in the engineering and construction industry prior to moving and settling in the United States. One of the major projects he was involved in was the construction of the Sultan's Palace in Brunei in 1981-1984. He was part of the Engineering Management and Support for the General Contractor in facilitating the timely completion of the Project.

Since moving to the United States in 1987, Mr. We has intensely focused in the electrical engineering and consulting field. To date, he has obtained extensive experience and provided outstanding services in the electrical design and engineering of various types of facilities.

His recent projects include:

- Dover Elementary School - Richmond, CA
- Urban Promise Academy New Multipurpose Bldg - Oakland, CA
- Havenscourt Middle School - New Health Clinic - Oakland, CA
- Skyline High School - New Health Clinic - Oakland, CA
- Elmhurst Middle School - New Health Clinic - Oakland, CA
- Frick Middle School - New Health Clinic - Oakland, CA
- Mission Valley Regional Occupational Program - Fremont, CA
- Walnut Creek Ford - Walnut Creek, CA
- Mission Bay Block 28 Office Building - San Francisco, CA
- Mission Bay N2P1 High End Residential - San Francisco, CA
- Sony Metreon - San Francisco, CA
- Regional Cancer Center - San Pablo, CA
- St. Mary's College - Moraga, CA
- War Memorial Building - Daly City, CA
- North Oakland Senior Housing - Oakland, CA
- Fremont Park Housing - Fremont, CA
- Folsom and Dore Apartment - San Francisco, CA
- Ritz Carlton Hotel - San Francisco, CA
- Highland Elementary School - New Classroom Building - Oakland, CA

Mr. We has extensive educational facility experience and is knowledgeable with DSA, CA Title 24, California High Performing Schools (CHPS), and LEED requirements.

TIFFANY L. KANE

Electrical Designer/Project Manager
WHM Incorporated

Education Diablo Valley College - Pleasant Hill, CA
 Silicon Valley College - Fremont, CA

Memberships National Fire Protection Association

Experience

As Project Manager for WHM Inc., Ms. Kane has specialized in field survey, design and construction administration of educational facilities.

Ms. Kane's 16 years of experience include lighting, power, fire alarm, security, intercom and computer infrastructure design for multiple school districts, with total project cost totaling more than 300 million dollars. In addition, she has extensive experience with DSA, CA Title 24, California High Performing Schools (CHPS), and LEED requirements.

Her projects include work for the following school districts:

Foster City/San Mateo Unified School District, Acalanes Union High School District, San Ramon Valley Unified School District, West Contra Costa Unified School District, Castro Valley Unified School District, Chabot/Las Positas Community College District, Contra Costa Community College District, Ross School District, Dublin School District and Orinda Union School District.

This work included campus-wide modernizations, fire alarm system replacements and new construction for classroom and administration buildings, gymnasiums and nine high school theaters for the performing arts. To date Ms. Kane has completed over 200 DSA approved projects.

Ms. Kane was the Project Manager for the new Dougherty Valley High School and Gale Ranch Middle School in San Ramon. The new high school campus consists of over 11 classroom and administration buildings, pool, athletic facilities, and performing arts theater. Construction costs exceeded \$120 million.

She recently completed a new voice evacuation fire alarm system for Las Positas College and provided consulting services to the district. These consulting services included peer review for coordination of fire alarm system requirements and connections of 11 campus projects.

Ms. Kane also is manager for WHM's computer and drafting procedures and operating systems.

PROJECT LISTINGS

EDUCATIONAL FACILITIES

ACALANES UNION HIGH SCHOOL DISTRICT (AUHSD)

Acalanes High School: Phase II consisted of remodeling the Administration and Classroom Buildings which included power, lighting, fire alarm and new intercom system for the entire campus. Phase II was completed in 1993. Phase III is a continuation of the renovation to the campus. Construction was completed in 1995. The 1998 Renovation and Modernization project included new electrical service and main switchboard along with campus classroom building upgrades. The 1999 Modernization project which included a new campus Theater constructed in 2002. Construction was completed Wing 500/Athletic Facilities Modernization in 2006.

Miramonte High School: Phase II consisted of remodeling the Administration and Classroom Buildings, gymnasium and the addition of a new Library Building. Phase III is a continuation of the renovation to the campus. Construction was completed in 1995. The 1998 Renovation and Modernization project included a new classroom building. The 1999 Modernization project included a new campus Theater constructed in 2002. Construction was completed on the Administration and Multi-Purpose Building modernization in 2004.

Campolindo High School: The 1998 Renovation and Modernization project included classroom building upgrades. Construction is complete for a new campus Theater designed during 2001. Construction was completed on the HVAC Upgrades and New Athletic Facility in 2005.

Las Lomas High School: Phase II consisted of remodeling the Administration and Classroom Buildings. The 1998 Modernization project included campus upgrades and a new campus Theater.

SAN RAMON VALLEY UNIFIED SCHOOL DISTRICT

San Ramon Valley High School: 2000 - 2010 Various projects including new Auditorium, Library/Cafeteria building, 2-story classroom building, Career Tech building, new Boy's Gym and locker room and new auxiliary gym and field restrooms and Concession building.

California High School - 2003 - 2009 numerous project included demolition, modernization and new construction of new PG&E services with new power distribution throughout site. New low voltage systems and site distribution throughout campus. New buildings included new 3-story classroom building, library, gymnasium, 2-story electives building, counseling and career tech building plus modernization of theater and gymnasium. Complete fire alarm and clock/paging systems upgrades throughout campus.

Dougherty Valley High School - This new campus consists of over 11 classroom and administration buildings, pool, athletic facilities and performing arts theater. Construction cost was over \$120 million.

PERALTA COMMUNITY COLLEGE DISTRICT

Telecom Upgrade project which included Peralta, Merritt and Laney Colleges. Estimated construction cost is between 5 and 7 million dollars. We have extensive knowledge of the campuses within this District as we have completed over 20 projects.

CHABOT/LAS POSITAS COMMUNITY COLLEGE DISTRICT

WHM has completed several projects at Chabot and Las Positas campuses. The projects include power distribution, lighting, data/communication and fire alarm systems. The following projects have been completed at the Chabot Campus: Site Lighting Upgrade, 12KV Upgrade, Architectural Barrier Removal, Humanities Building, Child Care Center, Technology/Engineering Building, Print Shop Building, Building 300/Renovation of Computer Room, Interim Bookstore/Cafeteria Building, Portable Buildings, Disabled Student Center, Connectivity/Telecommunications Center, Dental Lab, Music Skills Center, and Emergency Medical Services; Las Positas Campus: Architectural Barrier Removal, Campus Fire Alarm System, Science Center Phase I and Learning Resource Center. Construction was completed in 2004 for a campus-wide Fire Alarm System Replacement project at Chabot College estimated at \$600,000. A campus-wide fire alarm system replacement at Las Positas College was completed in 2010.

CONTRA COSTA COMMUNITY COLLEGE DISTRICT

The following projects have been completed at Diablo Valley College and include complete electrical services: Campus Fire Alarm System Upgrade, Architectural Barrier Removal, Skills Center, New Classroom/Faculty Office Building, Baking Lab Remodel and CAD Lab Remodel. Currently, we are designing a Womens Locker Room Remodel, Humanities Building - Seismic Retrofit and Portable Addition. Projects completed at Los Medanos College include Business and Central Services Remodel, 5 KV Upgrade, Vocational Technology Building, Portable Addition and Child Development Center. Similar projects were completed at Contra Costa College. The new Student Services Building was completed in 2008 at Contra Costa College.

CASTRO VALLEY UNIFIED SCHOOL DISTRICT

The following have been completed by WHM for the Castro Valley Unified School District: Canyon Middle School - Renovation and Additions; Marshall Elementary School; Creekside Middle School - Modernization; Castro Valley High School - Wing 600, Science/Art Building Wing 200, Campus Data Infrastructure, complete Fire Alarm System Replacement and new Athletic Facilities.

HAWKINS ELEMENTARY SCHOOL - JEFFERSON SCHOOL DISTRICT

This project included a new elementary school campus in Tracy, California. The campus includes 20 classroom buildings, Administration Building, Multipurpose Building and Library. This project completed construction in late 2002.

ROSS VALLEY SCHOOL DISTRICT

The following projects have been completed for the Ross Valley School District. These projects included complete campus modernization upgrading electrical systems such as power, lighting, fire alarm, data and communications. The campuses were Upper Brookside Elementary School, Lower Brookside Elementary School, Manor Elementary School, Wade Thomas Elementary School and White Hill Middle School.

ST. MARY COLLEGE

Since 1989, WHM has provided electrical engineering services for over 30 projects at St. Mary College which include Student Union, Gamma Building, 12 KV Site Distribution, Alemany Hall, Chapel Remodel, Brother Rahill Athletic Center, Ferroggiaro Hall 1st and 2nd Floor Remodel, Augustine Hall, Ageno Hall #1 and #2, Graduate Business Remodel and Bell Tower, Site Lighting and Syfy Performing Arts Center.

OAKLAND UNIFIED SCHOOL DISTRICT

We have completed several relocatable additions to various elementary school sites located throughout the Oakland School District. These include Highland Elementary, Hawthorne Elementary, Bella Vista Elementary, Parker Elementary, Burkhalter Elementary, Ralph Bunche Elementary, Fruitvale, E. Morris Cox and Peralta schools. The new Multipurpose Building at the Urban Promise Academy was completed in 2011.

WEST CONTRA COSTA UNIFIED SCHOOL DISTRICT

We completed Quick Start and E-Rate projects at 28 school campuses within the West Contra Costa Unified School District. Three major campus-wide modernizations were completed in 2005 at Lincoln, Stewart and Peres Elementary School. These three projects total approximately \$30 million. Currently under construction are campus-wide modernizations at Murphy, Kensington and Washington Elementary School totaling approximately \$35 million.

Dover Elementary School will complete construction in 2011. The new elementary school campus consists of new administration, classroom, multipurpose, library and miscellaneous buildings totaling approximately \$25 million.

In 2011 design will conclude on Coronado Elementary School and the new Portola Castro Middle School with construction starting soon after.

POLICE AND CITY HALL FACILITIES

TRACY POLICE FACILITY

MWM Architects

This project included a new state-of-the-art police facility. It consisted of 26,000 square feet on two levels. WHM Inc. provided electrical engineering services including power and emergency distribution systems, lighting, data/communications and fire alarm systems.

This project has been built.

COALINGA POLICE FACILITY

MWM Architects

This project included a new state-of-the-art police headquarters, jail, council chambers and remodel to existing city hall. It consisted of 19,000 square feet. WHM Inc. provided electrical engineering services including power and emergency distribution systems, lighting, data/communications and fire alarm systems.

This project has been built.

CATHEDRAL CITY CIVIC CENTER COMPLEX

MWM Architects

This project included a new police facility and city administration offices. It consisted of 60,000 square feet on three levels. WHM Inc. provided electrical engineering services including power and emergency distribution systems, lighting, data/communications and fire alarm systems.

This project has been built.

ALAMEDA CITY HALL RENOVATION

Crosby, Helmich & Frye

This project included a restoration of the historic Alameda City Hall building. WHM Inc. provided electrical engineering services including power and emergency distribution systems, period lighting, data/communications and fire alarm systems. This project has been built.
