
STEPHEN C. HANSMEYER, P.E.

Principal
WHM Incorporated

Education Six years college and university studies with engineering certifications in the following disciplines:

- Electrical Engineering & Technology
- Commercial & Residential Controls and Instrumentation
- Industrial Electronics and Robotics

License Control Systems - California CS-1717
State of California Energy Auditor 88-031

Memberships Illuminating Engineering Society
Institute of Electrical and Electronic Engineers
Instrument Society of America
National Fire Protection Association

Experience

Mr. Hansmeyer has over 40 years experience providing electrical engineering services on a vast array of project types: office buildings, hospitals, medical office buildings, universities, schools, colleges, correctional facilities, industrial buildings, laboratories/clinics, municipal buildings, retail buildings, condominiums, hotels/ motels, restaurants, churches and banks.

In addition, Mr. Hansmeyer has years of experience designing electrical systems for the following Northern California educational facilities:

West Contra Costa Unified School District, Peralta Community College District, Chabot/Los Positas Community College District, Contra Costa Community College District, Lassen Community College District, Acalanes Union High School District, San Ramon Valley Unified School District, Moraga School District, Orinda Union School District, University of California, Yuba College, Dublin School District, St. Mary's College, Castro Valley Unified School District and Ross School District.

Our electrical engineering services for these projects include power, lighting, telephone, data infrastructure, intercom, intrusion alarm and fire alarm systems. Mr. Hansmeyer has over 40 years of educational facility experience and is knowledgeable with DSA, CA Title 24, California High Performing Schools (CHPS), and LEED requirements.

He provided complete electrical design for Cathedral City Civic Center consisting of 60,000 square feet of City administration offices, jail and City Hall. As well as Coalinga Police Facility which included new police headquarters, jail, council chambers and remodel to their existing city hall.

Mr. Hansmeyer has provided electrical engineering services for the following hospitals in Northern and Central California:

Doctor's Medical Center, San Pablo; St. Dominic's Hospital, Manteca; Hanford Hospital, Hanford; St. Joseph's Medical Center, Stockton; Mt. Diablo Medical Center, Concord; Amador Hospital, Jackson; Stanford Medical Center, Stanford, UCSF Hospital, San Francisco; Mark Twain Hospital, San Andreas; and Alta Bates Medical Center, Berkeley. Including over 1200 Kaiser projects at the following facilities: Berkeley Central Lab, Santa Clara, Vallejo, Walnut Creek and Santa Rosa.
